Assignments:

- There are a number of benefits to reading the text before class – classroom discussion becomes more conversational, you necessarily see the material multiple times, and you have time to formulate questions. There will be a short **reading quiz** to be submitted before each class.
- Another important part of learning mathematics is to work through exercises. **Homework** will be assigned from each section of the book covered (the problems will be posted on Canvas).
- There will be five 20-30 minute in-class **quizzes** with questions directly from the homework. Your lowest quiz score will be omitted.
- There will be two midterm **exams**. Your lower midterm score may be replaced by your final exam score, if it benefits your grade. (if you get the same score on both midterms only one of them will be replaced)
- There will be several required **projects** to further develop your understanding of the course material. Some class time will be set aside for the introduction and completion of the projects.
- A two hour comprehensive **final exam** will be administered on Wednesday March 29, 2017 from 4 – 6 pm. The final is mandatory and must be taken at the scheduled time. Any student not taking the final will receive a grade of F.

Grading:

- **Reading Quizzes** will be submitted via Canvas.
- **Homework** will neither be collected nor graded (if it seems that too many people are not doing homework this may change). You are expected to work through the problems in order to learn. You are encouraged to ask about homework questions during class and office hours.
- **Quizzes** and **Exams** will be graded mostly as correct or incorrect and feedback provided. Exams and quizzes may be revised and resubmitted for additional credit.
- **Projects** will be graded as No Credit, Unsatisfactory, Marginal (Needs Improvement), Satisfactory (Meets Standards), Good (Exceeds Standards), or Excellent (Far Exceeds Standards). A more specific rubric will be provided with each project. Late projects will not be accepted.
- **Final Exam** will be graded with much consideration to partial credit since there is no possibility to re-work any mistakes.
- **Course Grades** will be determined by a “Grading Contract” which we will talk about during the first meeting.
